

# TEE-JAK™

## The TEE-JAK™

The Tornado Emergency Evacuation Jacket™ (TEE-JAK) is designed to provide individual mobile protection during a Natural Disaster, Fire, or Crisis situation. The TEE-JAK is Fire Resistant, Cut-Slash Proof, Razor Proof, and Shrapnel proof. In addition, each jacket includes Kevlar weave gloves, high-heat intensity goggles, vacuum sealed first aid kit, and a high decibel whistle to aid in rescue should you become trapped. The patented technology developed for TEE-JAK ensures a versatile option for protection from a variety of crisis situations.

**SPECIFICATIONS**—The TEE-JAK is designed with multiple layers of patented technology to provide the individual with the best defense from a variety of harmful situations. In addition to protection for the body, the TEE-JAK has a Nomex IIIA hood to protect the head, face and neck region from flying debris and fire. The 'Parka' style jacket provides cover to the genitalia region of the body while the lightweight design allows free range of motion for unimpeded movement.

## FEATURES

**First Aid Kit**—A vacuum sealed first aid kit is attached to the interior of each jacket and allows first responders to administer immediate first aid when required. Each kit comes with pressure bandages, tourniquet, a water proof first aid directional card.

**Goggles**—Goggles are stored in the hood of each jacket. The goggles are specially designed to provide protection in extreme temperatures and seals to almost any face shape. They meet ANSI Z87.1-2003 (High Impact) Standards and are certified to the requirements of CSA Z94.3.

**Gloves**—A pair of special Kevlar weave gloves are stored in the hood of each jacket. These gloves offer cut proof protection when used to move sharp or jagged debris. Kevlar weave mittens will be stored in the hood of children's jackets.

**Whistle**—A high decibel safety whistle comes with each jacket and is stored in the jacket sleeve pocket. The whistle can be utilized to assist rescue workers locate a person who may be trapped under debris or in a smoke filled building.

**Fire Escape Respirator (Optional)**—An ASE 30 Fire Escape Respirator and Smoke Hood can be added to each jacket.
